

CORE
ENERGY
GROUP

Tennyson is a Senior Energy Analyst at Core and has held the position since 2005. Tennyson has a Bachelor of Engineering (Mechatronic) with First Class Honours from Adelaide University and a Graduate Diploma in Finance & Investment from FINSIA.

Prior to joining Core Tennyson worked in mathematical modelling and simulation at SYDAC.

His skills include energy modelling and valuation across various elements of the energy chain, specialising in the gas, electricity and renewable energy sectors. Tennyson also leads Core's involvement in developing GENERSYS (energy simulation model) in conjunction with CSIRO.
