

Ben is a senior member of the Transaction team at Core Energy Group.

Prior to joining Core in 2010 Ben worked with international financial services firm KPMG for five years, more recently in the Corporate Finance area.

Ben's experience and core competencies extend across transaction project management; advanced financial modeling and valuation analysis; industry, company and asset level analysis and due diligence; project and corporate finance; management and Board level reporting and presentation; transaction documentation and execution.

Ben holds a Bachelor of Commerce from the Flinders University of South Australia. During his time with KPMG he completed his Graduate Diploma in Chartered Accounting and he is currently completing a Graduate Diploma in Applied finance through FINSIA.
