

CORE  
ENERGY  
GROUP

Emil is a member of the Strategic Advisory team at Core Energy Group.

Emil has completed his Bachelor of Finance degree and is due to complete his Bachelor of Mathematical Computer Sciences at Adelaide University in 2012.

His role within Core includes management of the GENERSYS simulation system, which requires his Java-based programming skills, as well as providing Visual Basic and system integration expertise in maintaining Core's databases of market and industry information.
